CompTIA Security+ Registration (Core)

Learning Objectives:

- Identify the process for registering for the CompTIA Security+ certification exam.
- Complete registration for the CompTIA Security+ certification exam.

Congratulations

Congratulations! You're six weeks into the Cybersecurity program and you're doing great!

The next step is to get registered for CompTIA's Security+ (SYO-601) certification exam. This certification is an industry-wide credential that shows that you are a security professional who is ready for a career monitoring and mitigating cybersecurity events and incidents by applying your knowledge and skills in implementing security solutions, laws, and policies.

About the CompTIA Security+ Exam

This 90-question exam takes up to 90 minutes and will "verify (you have) the knowledge and skills required to assess the security posture of an enterprise environment and recommend and implement appropriate security solutions; monitor and secure hybrid environments, including cloud, mobile, and IoT; operate with an awareness of applicable laws and policies, including principles of governance, risk, and compliance; identify, analyze, and respond to security events and incidents." (*Security+ (Plus) Certification | CompTIA IT Certifications, 2015*)

Key Point

To complete this assignment, you will need the CompTIA Security+ exam voucher code provided by your instructor or Student Experience Manager (SEM).

You will receive a second voucher (for CompTIA's CySA+ exam registration) and will complete another assignment similar to this one during or immediately upon finishing Week 6 of the Intermediate course.

As a reminder, you should expect to attempt the Security+ and CySA+ exams within 90 days of graduating from Coding Dojo's CyberSecurity program. If you have any questions about this process, please reach out to your SEM.
